I GENERAL INFORMATION

1. Time and Venue

Expo Days: October 21-24, 2010

--Installation Period: October 18 -20, 2010

--Dismantling Period: October 24-25, 2010

Venue: Chongqing International Convention and Exhibition Center

--Address: No.2, Jiang Nan Avenue, Nan'an District, Chongqing 400060, China

2. About Venue

Introduction of Chongqing International Convention and Exhibition Center

The 9th China International Motorcycle Trade Exhibition (CIMAMotor 2010) will be held at Chongqing International Convention and Exhibition Center.

Chongqing International Convention and Exhibition Center is a modern exhibition venue located in Nan'an District, Chongqing, China. It has all amenities including coffee houses, multi-function halls, conference rooms, underground parking, storage facility, office suites and other support facilities.

There are many hotels near Chongqing International Convention and Exhibition Center, including 1 state guest hotel, 5 five-star hotels, 4 four-star hotels, 6 three-star hotels, and dozens of economy hotels. They can provide the comfortable accommodation for more than 10,000 guests,

Venue Location

3. Concurrent Activities

3.1 General Information

The exhibition is composed of indoor display and outdoor activities. Indoor space displays exhibits including motorcycle and its parts and accessories, and outdoor space is used for the concurrent activities of the exhibition including Opening Ceremony of CIMAMotor 2010, Motorcycle Stunt Show, Motorcycle Riding Competition, Exterior Refitting Competition of Wuyang-Honda Joying 125, and New Motorcycle Trial Riding and etc..

2010 Chongqing International Motorcycle Riding Activity will be organized with the aim of exhibition promotion. During this activity, motorcycle fleets from motorcycle manufacturers will set out from the exhibition venue to city downtown and outskirts.

3.2 Pre-show Publicity

-- Show Preview

Pre-show newsletters will be sent to all the important decision makers and targeted visitors in relevant sectors in China one month before the opening of the exhibition. The newsletter covers all the show activities, exhibitors' information, exhibit updates & product profiles.

-- Promotional Materials

Apart from show tickets, exhibitors will be provided upon request with additional free promotional materials, to announce their presence at the show.

-- Press Conference

Pre-show news release will be held to boost the awareness of the show and generate the visitors' interest.

-- Media Publicity

The organizer started both domestic and global promotion in July. At present, all Chinese motorcycle media have signed cooperation agreement with the organizer . It is estimated that over 260 Chinese media including CCTV, and over 15 foreign media will be involved in the report of CIMAMotor.

3.3 Exhibits Display

Exhibitors must display their exhibits throughout the period of the exhibition from October 21st to October 24th, 2010. No exhibitor shall be allowed to remove his exhibits from the booth prior to the official termination of the exhibition, and every exhibitor shall have an authorized representative present at the exhibition throughout the period and during the installation and dismantling of his booth.

3.4 Technical Seminars

The exhibitor can hold technical seminar to present their latest products and technology to trade visitors. The seminars must all be pre-arranged and are subject to terms and conditions stated in the form of Technical Seminar (Form 2).

4. Site Operation Hours

(Any changes will be noticed by the organizer)

4.1 Installation period:

Raw Space: October 18-20, 2010 08: 30 am—18: 00 pm

Shell Scheme: October 19-20, 2010 12: 30 pm—18: 00 pm

Exhibits freight and booth installation shall be finished before 18:00 pm on October 20th, 2010.

During the process of installation and dismantling of booths, the corridors must not be used at any time for the storage of plants, materials or debris of any kind. The organizer may at its discretion order the removal of such objects, and the exhibitors violating this rule will be liable for the cost of removal.

4.2 Expo days:

-- **October 21-23, 2010** 08: 30 am—17: 00 pm

(Open to the general public from 9 am to 16:30 pm; Open to the exhibitors from 8:30 am to 16:50 pm.)

-- **October 24, 2010** 08: 30 am—14: 30 pm

(Open to the general public from 9 am to 14:00 pm; Open to the exhibitors from 8:30 am)

4.3 Dismantling period:

From 15:00 pm, October 24th, 2010 to 08:00 am, October 25th, 2010.

(Overtime fee shall be charged to the exhibitor during the period from 00:00 am to 08:00 am, October 25th, 2010.)

No stand may be dismantled or removed in part or in whole before 15:00 pm on October 24th, 2010.

-- Exhibitors must leave the sites placed at their disposal in the same condition as they found them. Damages caused by the Exhibitor's installation shall be assessed by the organizer and the cost of reinstatement and restoration shall be charged to the exhibitor.

-- Exhibitors are responsible for the removal of items, which are not provided by the organizer such as building materials, structures and debris from the exhibition site.

-- Exhibitors should remove all his exhibits and belongings from the booth, and hand over their booth to the venue office (1C Service Counter) before 08:00 am on October 25th, 2010, after which the organizer has the right to remove all objects found at the cost of the exhibitor.

5. Entry & Exit

5.1 Entry to the site for inspection and survey before the exhibition period may be allowed if prior arrangements are made with the organizer.

5.4 Regulation on Badges and Permits

-- During the period of booth installing and dismantling, all constructors and their worker are obliged to wear the Construction Permit all the time;

--The badges of Working Staff, Exhibitor, Booth Maintenance Worker, VIP, Journalist, and Trade Visitor are made with bar code, and will be scanned at the entrances and exits. Please keep it carefully, and RMB 100 will be charged for each extra badge;

--The badges and permits are forbidden to be lent, sold, re-written, and duplicated.

5.6 Badges and Permits Issue

--The badges of Exhibitor, Booth Maintenance Worker, VIP, Journalist, and Exhibitor Vehicle permit will be issued to exhibitors when they are registering.

--The Displaying Vehicle pass and Freight Vehicle permit will be sent to the exhibitors by courier before the exhibition.

6. Functions of Service Counters

--1A Service Counter (the Organizer Office): exhibitor registration; issue of badges, permits and materials; assisting in contacting with the constructors of Shell Scheme; dealing with exhibitor complaints.

--1C Service Counter (the Venue Office): Application for Construction Permit (payment of administrative fee and deposit; issuing Construction Permit and permit of Freight Vehicle) ; application for electricity supply, telephone, internet access, facility renting; overtime work declaration and etc..

7. Control & Use of Exhibition Booths

7.1 General Control

-- Exhibitors' booths are provided for the sole-purpose of displaying products and items.

-- It is forbidden to assign or sub-lease the allocated display area to third parties, even on a free of charge basis; all exhibits must be in accordance with the exhibition theme and the business range declared by the exhibitor; the organizer reserves the right to remove the irrelevant exhibits and keep them till the end of the exhibition. The cost of storage shall be borne by the exhibitor.

-- All displays shall not obstruct the view of adjoining exhibits nor be operated in any manner' objectionable to other exhibitors. The organizer reserves the right to remove or modify any exhibits whose fittings or operations are considered, under the Regulations, unsuitable, noisy, obnoxious, objectionable or dangerous to the exhibition, the visitors or neighboring exhibitors. All costs incurred for the removal of such exhibits shall be paid by the exhibitor.

--Smoking is prohibited within the exhibition area, except in the special areas designated by the

organizer. The exhibitor shall be held responsible for any damage or loss caused by his/her smoking in the exhibition area.

7.2 Explosives and Dangerous Materials

Explosives, detonating, fumigating or inflammable materials and objectionable or obnoxious substances are strictly prohibited.

7.3 Radio and Radar Equipment

Exhibitors intending to operate radio and/or radar exhibits must notify the organizer of the frequencies and obtain permission for such usage. Exhibitors intending to erect special antennae are requested to notify the organizer as soon as possible.

7.4 Obstructions and Projections

The corridors should be at least 3m in width at all times. No exhibitor shall be allowed to obstruct the corridors or any open spaces, and no sign or projection may be hung or projected over the corridors or open spaces, or affect in any way the display of neighboring exhibitors.

8. Invoice

Invoice will be issued during the Expo Period (October 21-24, 2010).

--Invoice for booth fee: the formal invoice will be issued for exhibitor after all booth fee are paid, meanwhile the receipt of advance payment will be collected back.

--Invoice for advertisement: the formal invoice will be issued for exhibitor after all advertisement fee are paid, meanwhile the receipt of advance payment will be collected back.

--Invoice for on-site service: the invoice of on-site services including booth installing, dismantling and modification, electricity, telephone, internet access, facility renting, and overtime fee shall be issued by the beneficiary.

Organization Code or TRN is required for invoice issuing.

9. Safety & Security

9.1 Electrical Installation

-- The main electricity supply on each booth must be performed by the professional electrician from Chongqing International Convention and Exhibition Center. Suitable air switches must be equipped on specially structured booth by the exhibitor.

-- All electrical apparatus, their electrical load and sensitivity in electrical insulation must comply with the relevant PRC regulations.

-- The exhibitors should take the necessary precautions against rain for all outdoors electrical apparatus.

-- All electrical apparatus, wires/cables etc. which can be easily contacted by people shall be covered with special protection.

-- For all electrical work, electricity supply and services on the exhibition site, the organizer is directly responsible to the hall owner and the related safety department of the PRC government. Therefore, electrical work including lighting, power connections, main power supply etc. must be handled by the electrician from Chongqing International Convention and Exhibition Center. Applications with full payment must be submitted to the exhibition service department of Chongqing International Convention and Exhibition Center before the deadline. Late applications or applications submitted on site will be subject to late surcharge.

--The maximum electricity capacity of shell scheme is 220V/5A. The supply of 250W 200V is provided free of charge for the exhibitor of shell scheme, so in case that the exhibitors need power supply of more than 250W or 380V/3 phase, they should apply to the 1C Service Counter (the Venue Office).

-- Since there is no free electricity supply provided for the raw space, those exhibitors should apply for the electricity supply according to the electricity consumption, so that the electricians can handle it in time to meet the need.

9.2 Exhibitors Obligation

--Plans of all activities including shows, gift distributions, new products launching and etc. need to be submitted to the organizer in advance, which will be submitted to the Public Security Bureau by the organizer. Otherwise, there is possibility that the activities can not be carried out.

-- It is prohibited to display unauthorized trademarks, unauthorized or copied products or prototypes owned by third-party companies, or products which infringe third-party patents or intellectual property rights. If such violation is confirmed by relevant departments, the organizer reserves the rights to remove the exhibits of such kind from the booth; and if it is a serious case the exhibitor may be disqualified for the subsequent edition of the event.

-- Exhibitors are responsible for the safe operation of exhibits in demonstration. The demonstration of exhibits which are likely to pose a risk to visitors must have appropriate protection measures.

-- Exhibitors must ensure that exhibits being demonstrated do not emit radiation or gases likely to be harmful to human life e.g. laser, toxic gases.

-- During the entire exhibition period, although official security guards will be provided by the organizer, the exhibitors shall be responsible for the security of their exhibits, and personal belongs. Any loss or damage shall be at their own risks.

-- Access to booths must be available at all times for safety inspection by safety officers and the exhibition center.

-- In principle, no advertising materials shall be affixed to the ceiling or pillars of the exhibition centre. However, lightweight materials such as banners may be hanged or posted within the booth area with the prior approval of the organizer.

10. Organizer Obligation

--The sponsors and organizer are not responsible for loss, theft or damage by fire or injury of any nature to any person or article. Reputable watchmen will be on duty day and night, but will not guarantee against loss.

--Each exhibitor participating in the exhibition needs to indemnify the organizer against all claims of all kind against the organizer, due to, or in any way, connected with their participation in the exhibition.

--The organizer is not liable to the exhibitors or their agents or employees in respect of any direct or indirect damage, loss or injury, to persons or property arising out of or in any way, connected with the exhibition.

--The sponsors and organizer shall not be liable for loss, damage, delay or cancellation as a result of any unforeseen reason or resulting from acts of war, civil commotion, strikes, economic blockade, military activity or any other circumstances which shall render it impossible or inadvisable for the organizer to hold the exhibition at the time and place provided. The organizer reserves the right to reschedule the exhibition at a later date.

--CIMAMotor shall reimburse the exhibitor the sums paid, if the event cannot take place, for any reason whatsoever, and the exhibitor shall hereby waive any further sum and any further action for compensation regarding either direct or indirect contractual and/or extra-contractual damages.

--The notification shall be made in written to the organizer if exhibitors wish to cancel their participation in the exhibition:

Cancellation notified within August 30th, 2010: The organizer shall withhold 50% of the advance payment as a penalty;

Cancellation notified after August 30th, 2010 and within October 6th, 2010: The organizer shall withhold the full amount of the advance payment as a penalty ;

Cancellation notified after October 6th, 2010: The organizer shall withhold the full amount of the advance payment as a penalty, in addition to the full balance due.

--The sponsors and organizer bear no responsibility for any errors or omissions in the exhibition directory, which is compiled from the information supplied by the exhibitors and /or their agents.

--The sponsors and organizer are not responsible for any loss, damage, or delay incurred in freight shipments (transport, handling and clearing) into and out of the PRC. Exhibitors are urged to adequately insure all shipments.

11. Temporary Staff

Exhibitors can hire interpreters or attendants to assist at the booth. Decorators and carpenters are also available for hire. However, exhibitors are advised to bring any sophisticated hand tools in case these are not available on site.

12. Entry to China

12.1 Visa Application to China

--All foreigners must obtain an entry visa before proceeding to China. Therefore, all exhibitors are required to have the invitation letter from the Chinese authority for visa application. Upon receipt of exhibitor's completed visa application (Please refer to Form 6), the organizer will coordinate and forward the information of the application to the Chinese department for the official invitation letter which will be ready within 7 days and shall be presented to your company by fax or express mail.

Invitation letter is free of charge.

12.2 The Customs

Tax is normally not levied on displays, stationery and drinks to be consumed in the exhibition hall. However, import tax may be charged on souvenirs and gifts. In order to avoid complication, exhibitors are encouraged to abstain from distributing gifts at the booth, except in very small quantity. If the gifts are too expensive, too large in size or are electronic products, the Chinese customs office may refuse clearance even if the carrier is willing to pay the import tax. Exhibitors are therefore advised not to carry these in their personal luggage. Slides, videos, movies and all literature for distribution in the exhibition must be vetted and approved by Chinese Customs in advance. For details, please refer to the manual concerning freight forwarding.

12.3 Credit Cards

Small hotels, some shops and restaurants only accept cash. Only major hotels and high class restaurants accept credit cards. Master, Visa and American Express are most commonly accepted in China. You are therefore advised not to rely entirely on credit cards for your daily expenses. Please note on the other hand that any cash amount equivalent to US\$ 5000 or more, and cash in RMB exceeding 6000, must be declared to the customs upon arrival.

ATM of (China) Bank of Communication is available within the venue, and UnionPay credit card is accepted.

12.4 Medical

Please bring with you prescribed drug you may need. Meanwhile, the First-aid is available during the exhibition.

12.5 Insurance

All exhibitors shall bear responsibility to insure indemnity and hold the organizer, sponsors, their employees or agents harmless in respect of all costs, claims, and any expenses incurred as a result of loss or injury caused by the exhibitors.

12.6 Third Party Liability Insurance

Exhibitors are required to obtain insurance for all third party risk, and to ensure that the organizer is added as a named insured in such insurance protection.

12.7 Weather

In October, the average temperature in Chongqing is 18.6°C.

12.8 Electricity Supply

380V, 50 c/s, 3 phase; 220V, 50 c/s, single phase. Electricity will be supplied throughout the exhibition period between 8:45 am to 16:50 pm daily.

12.9 Arrival Formalities

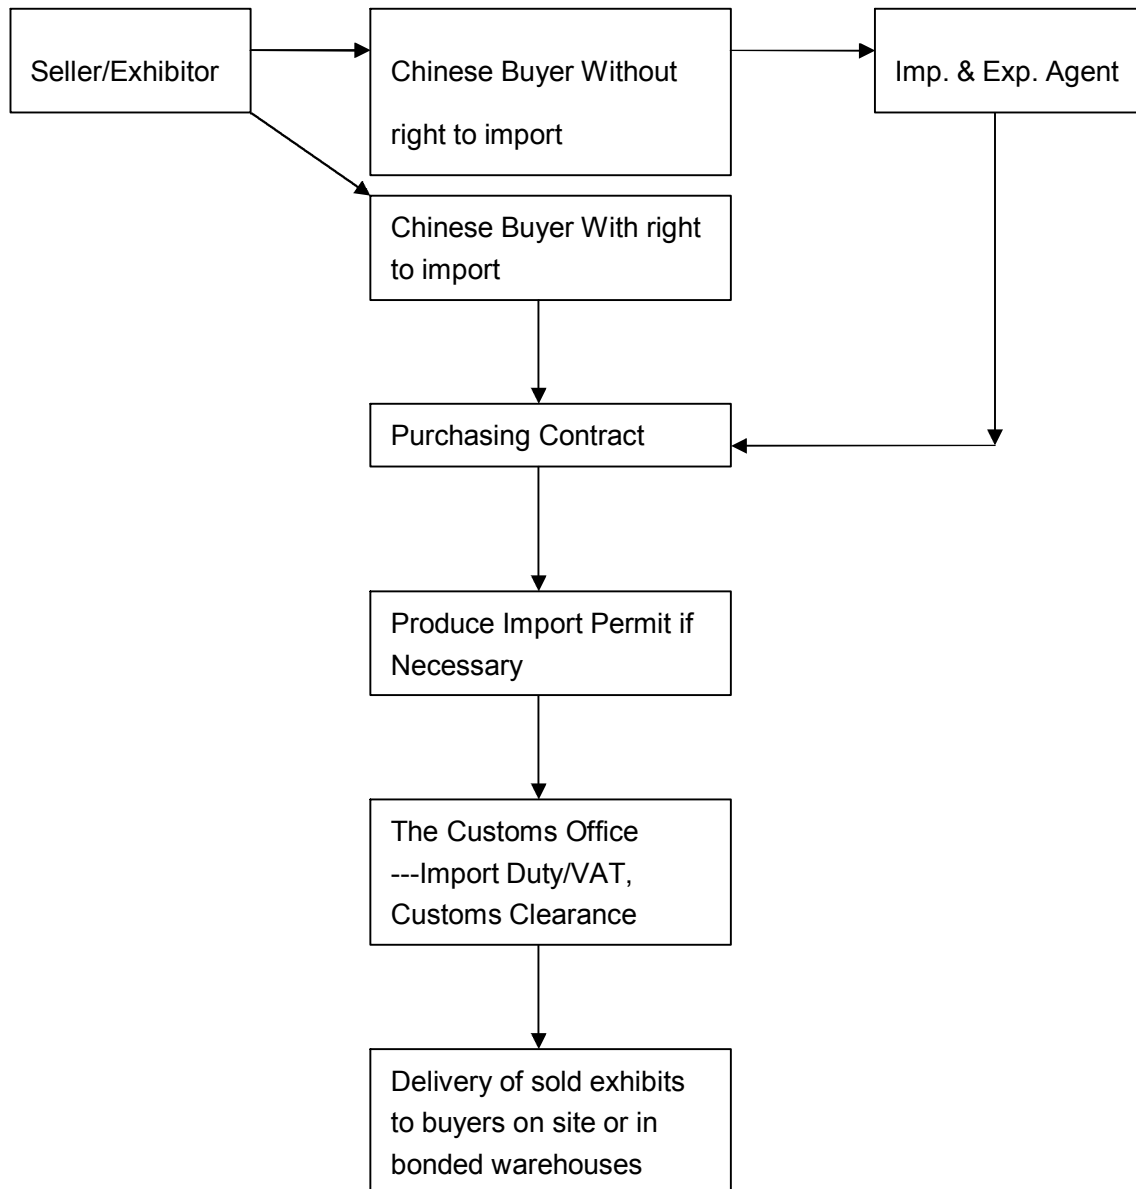

Health declaration, entry card and the Customs declaration forms are normally presented to you by the aircrew before landing.

If you are hand carrying exhibit items or publicity literature, declare to the Customs. Should difficulties of clearance arise, request that the cargo be customs bonded. You will be able to debond and clear the same article at the exhibition halls with the on-site Customs officers. For details, please contact the official freight forwarder.

13. How to sell the bonded exhibits to Chinese buyers

In order to assist exhibitors who may sell their bonded exhibits to Chinese buyers during the exhibition, we have specially prepared this information:

13.1 Procedures for Exhibitors to Sell Their Bonded Exhibits to Chinese Buyers

13.2 Important tips

A. What the seller/exhibitor has to prepare:

- List of specifications and quantity of the sold exhibit
- Payment Notice

B. What the Chinese buyer has to do:

- Sign the purchasing contract with the seller/exhibitor
- Get the import permit if necessary (please consult the Customs for the details)
- Settle the duties and other payments including:
 - a. payment of the exhibit at contracted price to the seller
 - b. import duties (as listed in the Customs Import Duty Handbook) to the Customs
 - c. VAT to the Customs ((dutiable prices of the exhibit +import duty)×17%)
 - d. Import surcharges (3% of the dutiable price of the exhibit) to the Import & Export Agent

C. What the organizers would do:

- Invite import & export agents to set up an on-site trade liaison office to serve exhibitors and Chinese buyers without right to import.
- Appoint official freight forwarder to supply services of the Customs clearance, transportation and bonded warehousing for exhibits before or after the show
- Coordinate the work of trade liaison office and freight forwarder with the Customs

*Note: The dutiable price is the contracted price if so confirmed by the Customs, or a market price decided by the Customs when the contracted price is deemed lower than the market price.

14. Checklist and Forms

Important note:

- A. If you need more than one copy, please photocopy.
- B. ALL FORMS must be returned. If you do not require certain offered services, simply indicate "Not required" and return to the organizers.

**Form 1- Safety and Fire
Prevention Obligation
Agreement**

October 10-24, 2010

Deadline: October 20th, 2010

1. Objective

The agreement is stipulated with the aim to ensure the personal and property safety of all participants of the 9th China International Motorcycle Trade Exhibition (CIMAMotor 2010). All participants are obliged to comply with the regulations to prevent the occurrence of accident and fire.

2. Obligations

2.1 Safety precautions should be explained to the staff by all exhibitors before their attendance in the exhibition, thus upgrading their awareness and ability of self-protection and self rescue.

2.2 All exhibitors are obliged to comply with Fire Prevention Law of the Peoples Republic of China and safety regulation issued by the organizer. All exhibits and other items should be taken good care by the exhibitors.

2.3 No exhibitor shall be allowed to obstruct the corridors or any open spaces, and packages shall be settled down in the designated area.

2.4 Any usage of power supply and electrical facilities need to be authorized by the organizer. The distance of at least 50 cm should be kept between the lighting and inflammable material. It is prohibited to use iodine-tungsten lamp and high pressure mercury lamp and etc..

2.5 It is forbidden to obstruct, occupy, move and damage the fire prevention system and safety signs.

2.6 Guns, bullets, explosive, flammable, poisonous, and radioactive materials are not allowed to be brought into the venue. Doubtful package with no owner shall be reported to the organizer or safe guard of the venue.

2.7 Cutting machine, welding machine, and argon arc welding and etc. are not allowed, and it is strictly prohibited to smoke in the venue.

2.8 Regular safety inspection should be carried out throughout the installing and expo period, and potential risk should be corrected in time. The exhibitor should check their booth carefully to ensure there is no potential danger before their leaving every day.

2.9 All exhibitors should comply with the local safety regulations and laws.

2.10 Anyone violating the above regulations shall be punished by the police in accordance with the law.

3. Period of validity

The agreement takes effect in the period of "The 9th China International Motorcycle Trade Exhibition" (CIMAMotor 2010), i.e. from the day of exhibitor registration to October 25th, 2010.

Exhibitor Signature _____

(Company Seal)

**Form 4 - Catalogue
Advertising Application**

October 10-24, 2010

Deadline: September 30th, 2010

Reach your buyers at the show and after!

The Exhibition Catalogue will be distributed to exhibitors, trade visitors, embassies, trade associations as well as international trade buyers unable to attend the event. Even after the exhibition, the Catalogue will still be a quick and comprehensive reference guide for buyers to search new contacts and services.

Yes, we are interested in placing an advertisement in the Catalogue:

Rates for Advertisements of Catalogue

Page	Size (mm)	Rates (USD)	Page	Size (mm)	Rates (USD)
Front Cover	170×180	8000	Full Page (Color)	170×240	4500
Back Cover	170×240	7000	Full Page (B/W)	170×240	4000
Inside Front Cover	170×240	6000	Inside Back Cover	170×240	6000

Size of advertisement (width x height):

Full page trimmed size --170mm ×240 mm

Full page bleeding size --176mm ×246 mm

Advertisement Material Required:

Advertisements are reproduced from color separated film positives (for color ads) and positive films (for B/Wads). A set of progressive proofs must accompany color separated film positives to ensure color accuracy. Additional work for artwork, typesetting, proofreading & color separation will be charged.

Cancellation Clauses:

The following penalty rates will apply if an advertisement is cancelled after **October 10th, 2010**.

Cover Position: 50% of advertisement cost;

Inside Pages: 80% of advertisement cost;

There will be no refund for an advertisement deposit if cancellation is made after **October, 15th, 2010**.

We understand that our advertisement order will only be processed when we enclosed the full payment of the advertising fee by T/T and submit our film positives before deadline.

October 10-24, 2010

Deadline: September 30th, 2010

In order to attract more visitors to attend the fair, the CIMAMotor 2010 will co-ordinate a territory-wide publicity campaign to draw maximum public attention and at the same to create pre-show or on-site publicity for the exhibitor. The campaign will incorporate every conceivable medium, including previews (show update), newsletters, specialized trade magazines and news conference.

Exhibitors can provide the promotional materials of their company and products to the organizer for media publicity and these materials will be used by international and local media freely. This service is free of charge for exhibitors.

Whether your materials will be picked up for publishing is totally at the media's discretion. All submitted materials will not be returned.

II Construction Guideline

1. Review of Construction Plan of Specially Structured Booth

Contact: Mr. Long Xi

Tel: +86 (23) 68633624

Chongqing Exhibition Center Co., Ltd

Add: No.269, Keyuansi Road, High-tech Zone, Chongqing 400041, China

1.1 Review Time

08: 30 am—17: 30 pm, September 20th-24th, 2010.

1.2 Review Procedure

1.2.1 The copy of the constructor's Business License (with company's red chop) is required to be submitted. If it is a double-story booth, then the qualification of the Structural Engineer is also needed.

1.2.2 The design drawings of booth construction must be submitted in triplicate for review (all printed in A4 size and sealed by both constructor and exhibitor). The drawings subject to review include: booth effect drawings (45° view from both front side and back side respectively), overall dimension drawing, main structure drawing, dimension drawing of back wall, and the specification for overall capacity of electricity facilities.

1.2.3 The submitted drawings in triplicate will be used for:

A. Applying for the formality of fire prevention;

B. Keeping as the files of the organizer;

C. Returning to the exhibitor for their application for Construction Permit in venue (Chongqing International Convention and Exhibition Center), and booth construction reference.

1.2.4 After the review and approval, the organizer will sign and seal on the drawings and files.

1.2.5 The exhibitor shall adjust his plan according to the organizer's opinion if he is required so, and submit the plan again by following the same procedures.

1.3 If the drawings and files are not approved and sealed by the organizer, then the application for Construction Permit in venue (Chongqing International Convention and Exhibition Center) shall be rejected.

1.4 The consignee of construction drawings and files:

Mr. Long Xi

Chongqing Exhibition Center Co.Ltd

Add: No.269, Keyuansi Road, High-tech Zone, Chongqing 400041, China

Tel: +86 (23) 68633624

E-mail: fwb@super-e.com.cn

2. Overtime Application and Fees

Contact: Mr. Song Zhengyang

Tel: +86 (23) 62609109

Application Place: 1C Service Counter

2.1 Overtime Application during the Installing Period

Exhibitors are required to construct their booth within the installation period (October 18th -20th, 2010, 08: 30 am-18: 00 pm). Exhibitor shall apply for overtime work and pay the fees if they want to continue their working after 18:00 pm.

The overtime fee is calculated by booth space:

2.1.1 18:00 pm-22:00 pm: ¥10/m² for 4 hours;

2.1.2 22:00 pm-24:00 pm: ¥10/m² for 2 hours (¥15/m² for October 20th, 2010);

2.1.3 After 24:00 pm, ¥10/m² for 1 hours (¥15/m² for October 20th, 2010);

2.1.4 The overtime fee shall be calculated as at least 36 m², and 1 hour;

The application must be made before 17:00 pm, or extra 30% shall be charged as the emergency fee.

2.2 Overtime Application during the Dismantling Period

The dismantling period is from 15:00 pm, October 24th to 08:00 am, October 25th, 2010 and overtime fee shall be charged during the period from 00:00 am to 08:00 am, October 25th, 2010.

The overtime fee is calculated by booth space:

2.2.1 ¥100/hour/each exhibitor for the booth less than 100 m²;

2.2.2 ¥200/hour/each exhibitor for the booth over than 100 m²;

The application for overtime work shall be made before 24:00 pm, October 24th, 2010.

3. Construction Permit Application and Fees of Specially Structured Booth

Organizer Contact: Mr. Long Xi

Tel: +86 (23) 68633624

Venue Contact: Mr. Song Zhengyang

Tel: +86 (23) 62609109

3.1 Construction Permit Application

The exhibitors of specially structured booth and special shell scheme shall apply for Freight Vehicle Permit and Construction Permit, which is compulsory for entering the venue, at the 1C Service Counter of the venue with the drawings and files approved and sealed by the organizer.

3.2 Construction Deposit

When applying for the Construction Permit at the Service Counter, the exhibitors are required to pay Construction Deposit (which is refundable) of ¥5000 for each booth of less than 200 m² (extra ¥5000 will be charged for each extra 200 m²). The deposit will be used for compensating any losses caused by exhibitor such as violating regulations, venue damages and garbage disposals. Please show the Deposit Receipt and Refund Confirmation of Construction Deposit at the Service Counter to get the deposit refunded after the exhibition.

3.3 Electricity Use in Installing and Dismantling Period

If you need electricity supply during the installing and dismantling period, please contact Service Counter and pay the fee (¥240 for 220V/10A, and ¥400 for 380V/6A).

3.4 Electricity Use in Expo Days

The exhibitors of specially structured booth, special shell scheme, and shell scheme who need electricity supply of more than 250 W, please visit www.cqcec.com to check the rates.

3.5 Cleaning Fee

Public area such as corridor will be cleaned by the organizer. The exhibitor shall be responsible for the cleaning within their own booth.

3.6 Construction Administrative Fee

The Construction Administrative Fee of ¥10/ m² will be charged to the exhibitors of specially structured booth and special shell scheme.

3.7 Application Time

Construction Permit application is available from September 20th –October 20th, 2010. (September 20th to October 9th, 2010 is normal working time, excluding holidays, and extra 30—50% will be charged as emergency fee after October 11th, 2010.)

3.8 Issued Permits and Badges

The Exhibitor badge, Exhibitor Vehicle permit, Displaying Vehicle pass, Freight Vehicle permit will be issued to exhibitors after all related fees are paid. For your own convenience, please read the instruction on the back of all permits and badges.

4. Construction Permit Application and Fees of Shell Scheme

Organizer Contact: Mr. Long Xi

5. Regulations on Construction of Specially Structured Booths in Hall 1

Organizer Contact: Mr. Long Xi
Tel: +86 (23) 68633624

5.1 The back wall of the booth must be constructed in the same direction as indicated in the floor plan (red line).

5.2 According to the international practice of motorcycle exhibition, 4.5m is the ideal height for overall display effect, and cost effectiveness. Exhibitors are encouraged to construct their booth to the height of 4.5m. The booth over 5m in height shall be removed, and any damage and losses occurred shall be borne by the exhibitor.

5.3 Apart from the back wall of the booth as indicated in the floor plan, it is prohibited to construct the booth wall exceeding 1/3 length of the open sides of the booth.

5.4 For the booth whose back is against the venue wall (TA07、TA08、TA09、TB05、TB06 and booth of the last row of Area C), the back wall of the booth shall not be more than 3m in height, for the need of ventilation.

5.5 It is strictly prohibited for indoor booths to adopt totally enclosed type ceilings. The booth ceilings shall not be covered by anything of the continuous width of more than 2m, with the minimum open space of 0.5m. For enclosed type ceilings, it must be ensured that the ceiling shall have space for the fire prevention system.

5.6 The construction materials shall use non-inflammable or fire retardant materials. Any usage of elastic fabric, glass fiber mesh, high-temperature and high-voltage light is forbidden.

5.7 For the booth needed to be constructed with suspended ceiling, the booth structure shall be designed in compliance with the 'Distribution Plan of Suspending Points' provided by Chongqing International Convention and Exhibition Center. The rope or other structures used for suspending shall not obstruct the fire prevention system.

5.8 For all specially structured exhibition booths, the design drawings of its booth construction must be submitted to the organizer for review before September 20th, 2010. Please contact the organizer for the list of drawings required.

5.9 Any booth exceeding the limitation set or violating the fire prevention regulations shall be required to re-construct, and any damage and losses occurred shall be borne by the exhibitor.

6. Regulations on Construction of Specially Structured Booths in Hall 2

Organizer Contact: Mr. Long Xi
Tel: +86 (23) 68633624

6.1 The back wall of the booth must be constructed in the same direction as indicated in the floor plan (red line).

6.2 According to the international practice of motorcycle exhibition, 4.5m is the ideal height for overall display effect, and cost effectiveness. Exhibitors are encouraged to construct their booth to the height of 4.5m. The booth over 5m in height shall be removed, and any damage and losses occurred shall be borne by the exhibitor.

6.3 Apart from the back wall of the booth as indicated in the floor plan, it is prohibited to construct the booth wall exceeding 1/3 length of the open sides of the booth.

6.4 It is strictly prohibited for indoor booths to adopt totally enclosed type ceilings. The booth ceilings shall not be covered by anything of the continuous width of more than 2m, with the minimum open space of 0.5m. For enclosed type ceilings, it must be ensured that the ceiling shall have space for the fire prevention system.

6.5 The construction materials shall use non-inflammable or fire retardant materials. Any usage of elastic fabric, glass fiber mesh, high-temperature and high-voltage light is forbidden.

6.6 For the booth needed to be constructed with suspended ceiling, the booth structure shall be designed in compliance with the "Distribution Plan of Suspending Points" provided by Chongqing International Convention and Exhibition Center. The rope or other structures used for suspending shall not obstruct the fire prevention system.

6.7 For all specially structured exhibition booths, the design drawings of its booth construction must be submitted to the organizer for review before September 20th, 2010. Please contact the organizer for the list of drawings required.

6.8 Any booth exceeding the limitation set or violating the fire prevention regulations shall be required to re-construct, and any damage and losses occurred shall be borne by the exhibitor.

7. General Regulations for Booth Installing

Organizer Contact: Mr. Long Xi

Tel: +86 (23) 68633624

Venue Contact: Mr. Song Zhengyang

Tel: +86 (23) 62609109

7.1 Freight Entry & Exit: All freight loading and unloading must be operated in the designated area located in the back of the venue. Freight Vehicle permit is compulsory for each freight vehicle entering into the exhibition area.

7.2 All exhibitors must comply with the national regulations about safety and fire prevention:

7.2.1 The certificates issued by the organizer such as Construction Permit and Exhibitor badge are compulsory for entering into the exhibition hall. All constructors of specially structured booth must wear the uniform of the company.

7.2.2 No inflammable, explosive, poisonous, and corrosive materials and restrained knives are permitted in the exhibition hall. The following operation must be authorized in written by the police:

--Any display and use of dangerous electrical, mechanic, and chemical apparatus;

--Any use of poisonous and dangerous materials including inflammable liquid, compressed gas, or chemicals.

7.2.3 Processing tools such as electric saw shall not be used for construction inside the exhibition hall, nor shall open fire operations such as electric welding and pneumatic welding be executed. In case of special requirements, the constructor must go to 1C Service Counter to go through application formalities. Construction can only start after the application has been approved. The venue keeps the right to stop the operation and detain the tools if any violating.

7.2.4 The construction materials shall use non-inflammable or fire retardant materials.

7.2.5 The fire extinguisher should be equipped with the ratio of one for each 50m² for specially structured booth, and one for each shell scheme (9m²). The organizer keeps right to suspend power supply if any violating.

7.2.6 When each constructor is constructing exhibition booth, it shall not set up obstructions in front of the fire prevention facility, monitoring facility, ventilation outlet, emergency exits and etc.

7.2.7 It is not allowed to put up or hang any exhibits, promotion materials or other signs at the fire prevention facility and lightings.

7.2.8 The operation of strong chemicals and noisy work is not allowed in the exhibition hall.

7.2.9 Smoking is strictly prohibited in the exhibition hall.

7.2.10 It is prohibited to use iodine-tungsten lamp and high pressure mercury lamp and etc.

7.2.11 The connection of the electrical apparatus within the booth shall be performed by the qualified electrician.

7.3 The requirement for electricity supply must be applied at 1C Service Counter.

7.4 The booth construction shall be carried out only within the booth area. Any exhibits and booth shall not exceed the leased area.

7.5 After the exhibits are unpacked, the packing boxes shall be moved to the designated area near to the Freight Exit. Exhibitors themselves shall be responsible for their packing boxes from loss and rain. Public area such as corridor will be cleaned by the organizer. The exhibitor shall be responsible for the cleaning within their own booth.

7.6 All exhibitors and constructors must not damage or alter any part of the exhibition hall. Or else all cost and losses occurred shall be borne by the exhibitor.

7.7 Any part of the venue shall not be altered. Nailing, screwing, and drilling on any part of the venue is not allowed.

7.7 Only erasable chalk and authorized paste are allowed to mark on the floor of exhibition hall, but the marks shall be cleaned completely by exhibitors before the booth dismantling.

7.8 Only cleanable paste could be used for fixing carpet or other items. Un-cleanable paste is not allowed on any part of exhibition hall and furniture. All damages and cost occurred shall be borne by the exhibitor if any violating.

7.9 Only safety glass is permissible. The edges of the glass panes must be worked or protected in such a manner that there is no danger of injury. Components made wholly of glass must be marked at eye level.

7.10 The loading capacity of each floor must be taken into consideration. If there is vibration part on the exhibits, then 50% of the load capacity of the floor will be reduced.

7.11 The automatic escalator can not be used for the transportation of goods, facility, and furniture and etc..

7.12 Basic processing of painting work is prohibited in the exhibition hall with the exception of paint repair for exhibits during the installing period. The following protection measures should be adopted in such case:

- The painting work should be carried out in the area with good ventilation;
- Environmentally friendly paint must be used;
- The floor must be protected from pollution;
- Any part of the exhibition hall and furniture can not be painted;
- The cleaning of the paint brush must be carried out of the exhibition hall.

7.13 Special Notice for Shell Scheme:

- Please do not bring similar booth furniture into the exhibition hall without permission from the organizer;
- Any changes, damages and alternation on booth and furniture are not permitted;
- Any decorations (including extra fascia, covering, signs, balloons, etc) are not allowed to install on the structure of the Shell Scheme by any nailing, screwing, and drilling;
- Any paint, glue and un-cleanable paste are not allowed on panels;
- Any construction including company logo over 2.48m in height shall be authorized by the organizer;
- The chairs and desks can not be moved and stepped on at any time.

7.14 Special Notice for Specially Structured Booth:

- The constructors of specially structured booth and special shell scheme shall pay for Construction Permit, Freight Vehicle permit, Administrative Fee, Electricity Fee, and Construction Deposit when they complete the application formalities;
- Wooden material must be covered by fire-prevention board or painted by fire-prevention paint for three times on both sides (fire-prevention painting is not allowed in exhibition hall, and it must be done before entering the exhibition hall);
- The designed structural strengths of all booths shall meet the strength required by the load. During the

installing period efforts shall be made to ensure the overall strength, stiffness, stability and local stability of the exhibition booth structure. Any obstructions on the fire prevention facilities, and emergency exit and etc are not allowed. Specially structured booth shall be designed reasonably so as not to obstruct visually the neighboring booth.

-- The construction area of a booth must comply with the area specified in the submitted application. Any part of the booth (including the upper part) and exhibits can not exceed the leasing border line. The obstruction of the fire-prevention facilities and emergency exit is not allowed.

-- The booth ceiling can not be enclosed, and Any usage of elastic fabric, glass fiber mesh is not allowed;

-- Only authorized adhesive tape can be used for carpet. The cost for cleaning will be borne by the exhibitor involved if any violating.

-- Any paste on the pillar of exhibition hall is not allowed. Only cleanable paste can be used for carpet or else items on the cement floor. Any paste on stony floor and walls are not permitted. Any sticky drawing and promotion material are not allowed. The cost for cleaning will be borne by the exhibitor involved in any violating.

-- It is not allowed to put up or hang any exhibits, promotion materials or other signs at the corridor, entrance, fire prevention facilities and ventilation outlet and etc. Any nailing, screwing, drilling on any part of the exhibition hall is not allowed. The damage and loss occurred will be borne by the exhibitor involved in any violating.

-- It is prohibited to do any work relating to booth construction in the Entrance Hall. Any alternation on structure of exhibition hall including floor, walls, doors, windows and etc is not allowed. Any damage and losses occurred shall be borne by the exhibitor involved if any violating.

-- For the booth whose back wall is facing the corridors, the back wall must be properly decorated. It is not allowed to put any promotional material and etc on the back wall of the neighboring booth.

-- The connection of electricity apparatus must be authorized before the operation. Any unauthorized electrical connection and alternation of fire prevention facility is strictly prohibited.

-- The qualification of electrician and welding operator is compulsory for booth construction.

-- The booth construction plan should include the front view, back view and sectional drawings of the booth, with the dimensions, materials, instructions, and electricity capacity marked, and circuit diagram;

-- Electricity cabinet should be settled in the area where is prominent, safe, and easy to operate. Under no circumstance shall it be placed in the corridor.

-- The construction of suspended ceiling must be authorized. The fire prevention facility and lightings should not be used as suspending point. Due to the availability of the escalator, please contact the venue in advance.

-- Please do not bring similar booth furniture and material into the exhibition hall. In case of necessity, please contact the venue office to get the furniture and material registered before entering into the exhibition hall. Or else the venue office keeps the right to detain the furniture and material when they are leaving the exhibition hall.

-- The organizer and the concerned governmental department keep the right to revise the construction plan submitted by the exhibitors and constructors. All construction work can only be carried out after they are authorized. Or else the damages and losses occurred shall be borne by the exhibitor.

-- On account of fire prevention and safety, two-story booths are not permitted. In case of necessity, the application in written must be made, with the following regulations:

- (1) Two-story booths can only be designed and constructed by the qualified constructors.

(2) Whether the two-story booth can be constructed depends on its exact location and the booth area. The factors including overall effect of the exhibition, visibility of concerned signals, and visual influence to the neighboring booth and etc shall be considered.

(3) The upper floor shall not be exceeding the 1/3 of the ground floor in terms of area, and it can be used only for business meeting;

(4) The two-story booth must be steel-structured, and all material must comply with the concerned regulations about floor, walls, and ceiling. Construction material including steps, and carpet should be fire retardant (relating certificate is needed.)

(5) One fire alarm should be installed every 8m on ceiling.

(6) Fire extinguisher should be equipped with every booth;

(7) Stairs, opening display area and meeting area should be at least 3m away from the corridors.

(8) The distance of at least 3 meters should be kept between the two neighboring booths. If not possible, the partition of at least 2m in height should be placed, and the side facing neighboring booth should be clean and neat, which the neighboring exhibitor could use for product promotion.

(9) The rail of the upper floor shall not be less than 0.9m in height. To avoid someone put something on the rail, the section of the rail must be in circle shape.

(10) All stairs must be able to support at least 5.0 kN/m² in accordance with DIN 18065.

(11) The rails must be able to support at least 1.0 kN/ m².

(12) The distance from any point of the upper floor to a hall corridor may not exceed 25m.

(13) If the upper floor area is less than 100 m², it must be equipped with one stairs leading to the corridor; If the upper floor area exceeds 100m², at least two stairs are required and one of them must lead to the corridor. The organizer keeps the right to require extra fire prevention and safety facilities at its own discretion.

(14) The completed construction plan of two-story booth must be submitted to the organizer before September 20th, 2010.

(15) Because the construction plan of two-story booth must be approved by qualified companies, the cost occurred shall be borne by the exhibitor.

(16) A person responsible for site security must be appointed to deal with emergency during the exhibition.

The exhibitor must be responsible for all losses and damages occurred about their two-story booth, and they must obey the supervision of the organizer throughout the exhibition.

8. General Regulations for Booth Dismantling

Organizer Contact: Mr. Long Xi

Tel: +86 (23) 68633624

Venue Contact: Mr. Song Zhengyang

Tel: +86 (23) 62609109
